

Work Log for September

Logan Brown

September 23, 2014

1 Week of September XXth-XXth

1.1 Goals for the Week

1. Look at readPsuadeIO function (replacing fscanf with tget?)
2. Test Ising model once Jason adds it to the DIEL
3. Look into Optimizer (Bobyqa?, can it optimize after running?)

1.2 Progress/Notes

1.2.1 Build a test module

1.2.2 Install PSUADE 1.7.2

1.2.3 Look at readPsuadeIO function (replacing fscanf with tget?)

1.2.4 Test Ising model once Jason adds it to the DIEL

1.2.5 Look into Optimizer (Bobyqa?, can it optimize after running?)

1.3 Goals for next Week

1. Future Goal
