

Work Log for September

Logan Brown

September 16, 2014

1 Week of September XXth-XXth

1.1 Goals for the Week

1. Hard psuade data
2. Rosenbrock Driver Code

1.2 Progress/Notes

1.2.1 Hard psuade data

~~See psuade-examples/psuadedata and psuade-examples/bigRosenbrockRunData~~
See the *.m files added in the data above.

1.2.2 Rosenbrock Driver Code

Rosenbrock driver works fine on star1. But the MPI fails.

1.3 Goals for next Week

1. Parallelism (Can we control the number of parallel operations?)
2. Hard psuade Data (make some pictures)
3. Home Matlab Installation (ssh is slow for imaging)
